

SONICWALL®

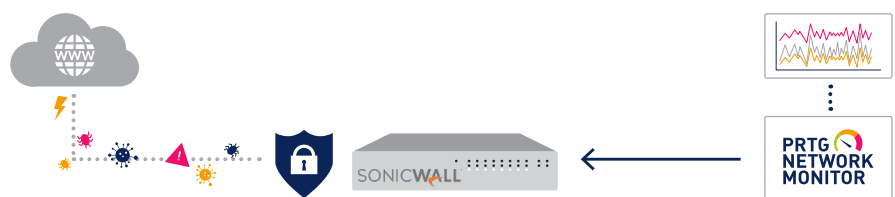

More Reliability for Maximum Security

SonicWall's next-generation security solutions combined with Paessler's PRTG Network Monitor ensure maximum security for all kinds of networks. The partnership between SonicWall and Paessler enables seamless integration for their solutions, giving their joint customers greater, easier and more reliable security.

SonicWall – The Next Level in IT Security

SonicWall has been preventing cybercrime for over 25 years, defending small and medium-size businesses and enterprises worldwide. Backed by research from the Capture Labs Threat Network, SonicWall's award-winning real-time breach detection and prevention solutions – coupled with the formidable resources and expertise of more than 18,000 loyal channel partners around the globe – are the backbone that secures more than a million businesses and mobile networks and their email, applications and data. This combination of products, innovation and partnerships delivers real-time cyber defense solutions, tuned to the specific needs of more than 500,000 businesses in more than 150 countries around the world.

Paessler AG – The Monitoring Company

Paessler AG's award-winning PRTG Network Monitor is a powerful and affordable IT monitoring solution with a focus on usability. It is a highly flexible and generic software for monitoring IT infrastructure, in use at enterprises and organizations of all sizes and industries. Over 200,000 IT administrators in more than 170 countries rely on PRTG and gain peace of mind, confidence and convenience. PRTG delivers out-of-the-box support for industry-leading hardware and software solutions that grant users a quick and easy monitoring setup for their entire infrastructure.

The Uptime Alliance Effect

Partnering in line with the Paessler Uptime Alliance, SonicWall and Paessler create multiple benefits for customers using both SonicWall security solutions and PRTG Network Monitor:

- Seamless integration of SonicWall solutions into PRTG
- Enhanced reliability and security for their SonicWall products
- Better visibility of traffic, threats, and status of their devices
- One single pane of glass for their entire IT infrastructure
